Meeting Minutes for July 1, 2010

The meeting was called to order by Vice President David Campbell at 7:02 PM. There were 10 members present and 3 guests.

Motion was made and accepted to approve the minutes as published. Bob Schwandt then gave the Treasurer's report. Motion was made to accept the Treasurer's report with an overall balance of \$13,955.08. Motion was made and accepted.

Old Business:

Justin Heath said that the club has a doublewide popup tent that needs to be sold.

Bob Schwandt asked if someone could take over the raffle for the float fly coming up July 17th and 18th but couldn't get any volunteers. Bob gave a report on the status of the float fly and he seems to have most of everything in order.

New Business:

Wes Parker wasn't able to make the meeting so he gave a status to David through email on the gravel to be hauled in by Collin Campbell for the drive. He said that Collin should be delivering some by the end of the week.

It was brought up that there is a crack in the runway that still needs to be filled with sand and sealer. Justin said he could put sand in it.

With no other business to come before the club the meeting was adjourned at 7:25 PM.

Thanks for letting me serve!
Lanora M. Campbell

A Growing Problem –

No not BPH, but TRASH! The club voted some time ago not to have any trash collection or pickup service. Therefore, it is the responsibility of each member and/or their guest(s) to remove all their trash from the field premises when they leave. Let's all make it a priority to keep our field clean.

Identity Crisis

Not everyone in our club knows everyone else. We've had a few instances lately when a pilot present not known by another had questions about another's membership. **It is a club requirement for every pilot to display a current membership card in the frequency board regardless of what kind of TX one uses!** A guest must display a current AMA card.

Gravel, we have gravel

We have lots and lots of gravel. Our thanks to James Parks for finishing some of the spreading of the gravel. [To our knowledge, only one killdeer hatchling survived upon hatching the night after the gravel was delivered.]

Float Fly Report

Another successful floatfly. We had visitors from Kansas City, Memphis, and Jonesborough along with our own club fliers. The success was because of the efforts of the people involved. Thanks to Bert Turner for the use of his boat without which you can't have a floatfly, Bob Thompson for his trolling motor to propel the boat, Justin Heath for storing, delivering and setting up the club equipment, Tim McWhorter for bringing the pop and using his Gator to shuttle people from the parking lot to the flying site, Dave Sleeth for the items he

donated to the raffle, James Parks for helping with all tasks and serving as security by spending both nights at the site, Wes Parker for running the rescue boat, Ron Schanda for setting up and general help and Jerry Kutz for cooking and serving the lunch as usual.

--Bob Schwandt

A special thanks to James Parks for the many many Float Fly pictures – way too many to print here.

Next club meeting:
Thursday, August 5, 7 pm
>> Library Station <<<
Frisco Room
