THEN THE RAINS CAME

It looked like the summer was actually here for a while. Sunshine, no wind, and warm temps were nature's calling card for the Fun Fly this past Saturday. But due to stay at home activities I couldn't be there to join in on the fun. Hope you all had a great time. HOWEVER, rain is in the forecast for the upcoming week and week end. So, hopefully after that, good flying weather will be back again—Dennis

JON WIGGINS

Thanks to Ron Hargrave and Aaron Pennington, we have been getting regular updates on Jon's Hospital stay and his bypass operation and recovery. The last I read Jon was home and doing well although pretty tuckered out from the ordeal.

We are all happy he has come through this and look forward to his return to the field to put his planes back in the air.

PLANES FOR SALE

You should have already seen this in a member e mail but if not...Ron Penner from Oklahoma has a number of large scale planes and a trailer for sale. If any of these items are still available, you can get a good deal on them. Pictures are available on the email sent to Aaron. Contact Aaron Pennington for more information.

SAFETY FIRST

If any of you are flying alone, please be sure to be EXTRA careful. Injuries can be quick and lethal. All it takes is the wrong move at the wrong time. PLEASE BE CAREFUL!

CLUB FUN FLY RECAP

A good number of us turned out for the club fun fly last Saturday. The weather was nearly perfect, lunch was good and we were able to use the new float fly pond! With the exception of a mid-air collision everyone had fun. More on that in a minute.

I have to say that Rick did a great job with the float fly pond. Recent rains had filled it to near capacity and his survey skills were spot on. I had forgotten how much fun touch-and-go's are on water. Size-wise it might be a bit tight for a large scale plane but it was great for my 50" Icon. Butch, Bryon and myself all flew from the water.

One hiccup for the day was a rare mid-air collision. I've been a member for a long time and I've not seen one except where two planes were deliberately close. Darrell and Rick each shaved off a wing in a spectacular north/south collision resulting in near total losses. Crashing a plane is never fun. Particularly when the plane is brand-spanking-new like Darrell's was! That stinks.

Otherwise it was a great day! - Wes
