Volume 22 Issue 10 **October 2010**

President's Corner

Cooler temperatures and shorter days are a reminder that we are closing in on the end of another year. It's hard to believe that it's time for the Club to prepare for 2011. We'll have to form a nomination committee for Officers at the next meeting. Please think about volunteering to help with this. It's a simple job – just talk to people and see if they are interested (or can be talked into) in being an Officer or Board Member and work up a ballot. If you *really* want to help, consider adding *your* name to the ballot. Help steer the Club in the right direction and get involved! I've enjoyed being President this year and look forward to serving in some capacity next year as well.

I'd like to personally thank the Officers and Board Members for 2010. We have a fantastic Club and facilities. It's your involvement that makes it a continued success. A special thanks to Bob Schwandt for his 3-year term as Treasurer. We do appreciate it Bob!

See you at the field,
Wes "Scott" Parker

Meeting Minutes, September 2

Old Business: Posting of membership cards as required has been fairly good lately. Wes tried to haul off the junk, but his trailer hitch broke. He will try again soon. Roof still needs sealing and the eaves need screening to keep the birds out of the attic. Proposed date for sealing the roof: Sept 25 (Sat).

New Business: The electricity went out for a few days at the field and all the perishable foods were thrown out. Comments were made about how to get community awareness of our club. Several suggestions were made.

Electric Model Day, September 19

The day started out rather slow with only a few pilots. The Community Calendar item attracted several visitor families throughout the day. In the afternoon, there were several pilots and many electric models: from the tiny micro T-28 of Jason Metivier to the giant 3D models of Justin Heath and Brent Graaf. Many good sharing conversations took place and that was one of the main purposes of this day.
